I am writing to provide my recommendation for Ahmed Dannaoui. As Ahmed's Professor during his Capstone project at Wayne State University, I had the privilege of working closely with him. Throughout the duration of the project, Ahmed consistently demonstrated admirable qualities that deserve acknowledgment.

Ahmed served as the team lead during his Capstone project and demonstrated effective leadership skills. He efficiently managed team dynamics by assigning tasks based on each member's strengths. Ahmed is proficient in time management, consistently delivering high-quality work within deadlines. He effectively prioritizes tasks and remains focused even in fast-paced environments, ensuring project completion within the designated timeline.

Ahmed possesses an impressive technical skill set and quickly adapts to different technologies. He excels in front and backend development and possesses a strong command of languages like JavaScript, HTML, CSS, and AWS Resources. Ahmed's proficiency in utilizing these technologies was instrumental in developing a robust and functional application.

Ahmed showed a genuine interest in continuous learning and self-improvement. He actively sought opportunities to enhance his technical abilities and stayed updated on the latest industry trends and best practices. Ahmed's commitment to professional development and thirst for knowledge reflects his dedication to excellence.

In conclusion, Ahmed is a strong candidate with leadership abilities, technical skills, and a commitment to improvement. He has been professional, dedicated, and an excellent problem-solver for his Capstone project. I highly recommend him to any organization.

Best regards,
Seyed Ziae Mousavi Mojab, Ph.D.
Assistant Professor of Computer Science
Wayne State University
Department of Computer Science
